

Mediator Practicum Flow Chart- Minimum Standards of Certification via a DRC Practicum Program, per Resolution Washington (www.resolutionwa.org)

* It is the responsibility of the practicum trainee to stay engaged and remain active throughout the course of the practicum and the DRC’s responsibility to provide opportunities to learn and encouragement for consistent involvement.
 **Once a mediator has been certified, *the minimum standard* for maintaining certification requires ongoing supervision and assessment by the local DRC. ResWA recommends 10 hours of continuing education per year, mediating at least 2 cases per year, and demonstration of competency.
